

HSA International Solicitation

Title: Lunar Mission

Release Date: 01 Feb 2019

Closing Date: 28 Feb 2019

Introduction

Hellenic Space Agency is going to support NASA's Mission to Moon exploration, as it has been stated officially through HSA's document 14-12-2018/33 "NASA Invitation to Exploration Campaign".

The strategic goal of the mission is, to deliver 1 kgr payload to Lunar Orbit and Surface, through partnering with NASA, International Companies and Hellenic Universities, Industry and Research Institutions.

The mission is considered a flag mission for the Hellenic Space "Ecosystem".

The Hellenic Space Agency will seek the maximum engagement of the Hellenic Universities, Labs, Research Institutions, Industry in order to promote space activities in Greece.

High Level Proposal Requirements

Potential applications should include, but not limited to the following:

- Detailed technical proposal to deliver a 1kgr payload to Lunar Orbit and Surface
- Number of Days of service in Moon Surface > 15 days
- Communication Limitations > 1 Mbps or deliver images and/or video to Earth
- Power availability = 1 Watt

Eligibility

Applicants are eligible to deliver a proposal from any institution worldwide.

Applications, without an official accreditation to deliver a payload to Lunar Orbit and Surface, will not be considered.
